B Range booths, pods & telephone hoods Class "A" Acoustic Booths

ECO's new range of booths and pods are ideal for team meetings, briefings and interviews away from the sounds of the busy office environment.

Available in 3 grades of Class "A" acoustic sound absorption.
NRC 1.1, NRC 2.6 & NRC 2.8.

All booths and pods by default deliver Class "A" sound absorption, there are five classes of sound absorption in the BS EN ISO 354:2003. Class "A" being the highest class, Class "E" is the lowest class.

Booths and pods are manufactured to your customers acoustic needs, and sizes are frequently altered to suit the installation area.

Style B

Style A

Floor standing phone booth

Style A

Style A

Wall mounted
phone hoods

Style B

Class “A” Sound absorbing telephone booths and hoods.

Both the floor standing & wall mounted versions are available with 2 front edge designs.

Style A has a continues angle from the top of the booth to bottom.

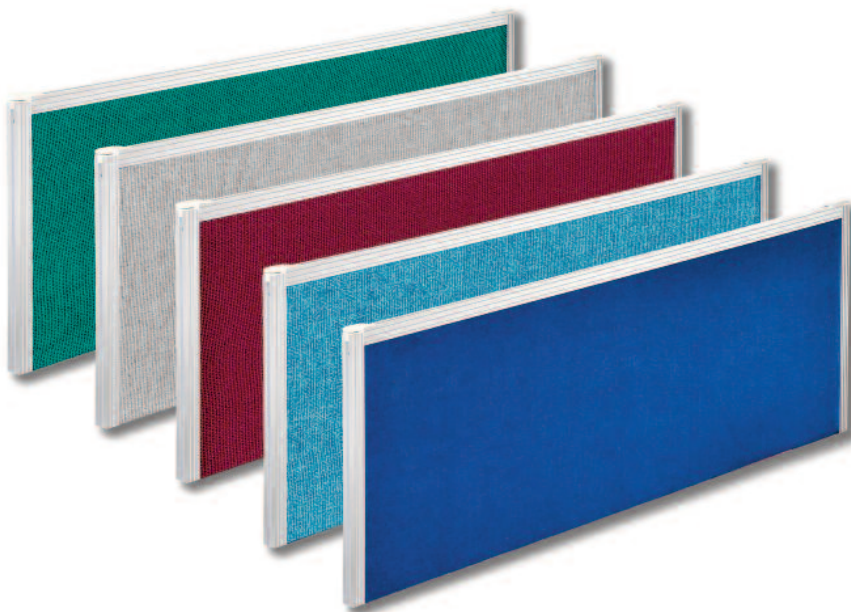

Style B has a bottom half cut away angle, the price remains the same whichever style you choose.

The internal shelf on the floor standing booth is covered in a white anti-bacterial vinyl as standard with other colours to order, and the standard depth of the shelf is 20cm other widths to order.

The internal shelf on the wall mounted hood is covered in a white anti-bacterial vinyl with other colours to order, and the standard depth of the shelf is 15cm other widths to order.
